ElectViz Election Data Visualization for Media

OVER VIEW :

- It Focus on Transform complex election data into clear, interactive, and easily understandable dashboard
- It Analysis National and regional election results, voter demographics, and comprehensive trend analysis
- It Enhance understanding and engagement through interactive and static visualizations
- The dashboard enables year-wise, state-wise, party-wise, and candidate-wise analysis

DATA SOURCE:

- The dataset provides detailed information on election candidates, results, and performance across all Indian states

State Name	Constituency	Candidate Name	Gender	Age	Category	Party	Party Symbol	Total_Votes_Polled
West Bengal	Rajmahal	MANDAR SINGH_TOM	FEMALE	61	GENERAL	BHUDRP	Tyres	1374127

VISUALIZATION TOOL

- Key Visuals:
  - Bar Chart –Winner by catagory
  - Column Chart – Winner by catagory by year
  - Donut Chart – candidate by gender
- KPI card show:
  - Total winner- 617
  - Total candidates - 10k
  - Avg winning age-46.91

FUTURE SCOPE:

- Link social media sentiment patterns with election data for
- comprehensive public opinion tracking
  Mobile Dashboards
- Develop responsive, touch-optimized interfaces for
  seamless mobile access and engagement
- Local Elections Expansion
- Extend coverage to municipal elections, school boards,
  and local referenda for comprehensive civic data

THANK YOU
